

Clinical Experience

 Technical Competence

Common Features:

- Integrated, extremely quiet turbine
- Transportable, easy handling
- Colored 8,4" touch screen with several graphical display options
- Configurable, personalized graphical user interface
- CO₂ main and side stream
- Masimo® Rainbow Technology
- Data logging function
- Automatic alarm
- Different single-use breathing tube systems

EVE_{NEO}

especially designed for the smallest of Patients.

EVE_{NEO} supports spontaneous breathing in all phases due to sensible pressure control down to a tidal volume of 2ml

Key Features:

- DUOPAP allows spontaneous breathing on all pressure levels
- Non-invasive ventilation with Stephan "EasyFlow" prongs and mask patient interface
- Synchronized ventilation
- A/C, S-IMV, PSV expiration cycle
- Volume target ventilation, PRVC
- Dead space optimized proximal flow sensor for V_t of 2ml
