# The mobile Ventilation Concept

Clinical Experience  
+ Technical Competence

the right solution for every job

Emergency

Innerclinical  
Transport

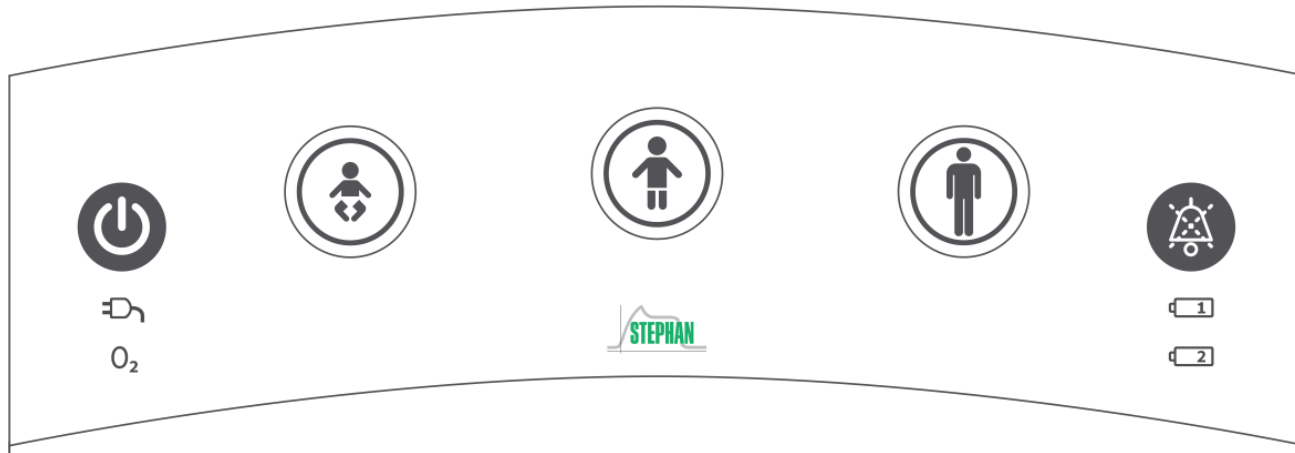

Intensiv care

Clinical Experience  
+ Technical Competence

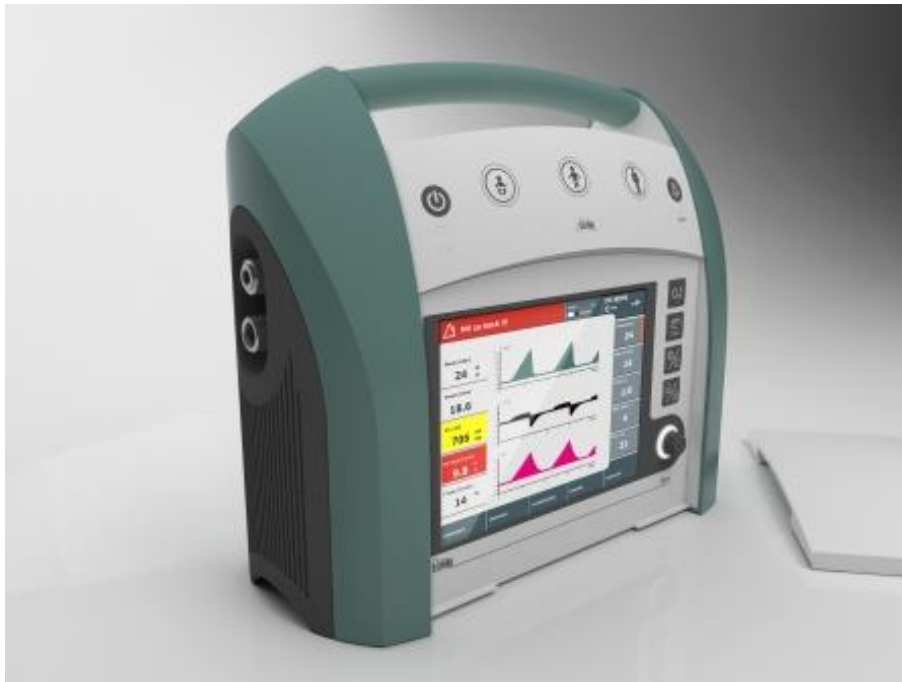

# The mobile Ventilation Concept

one unit for all patient groups

## The mobile Ventilation Concept

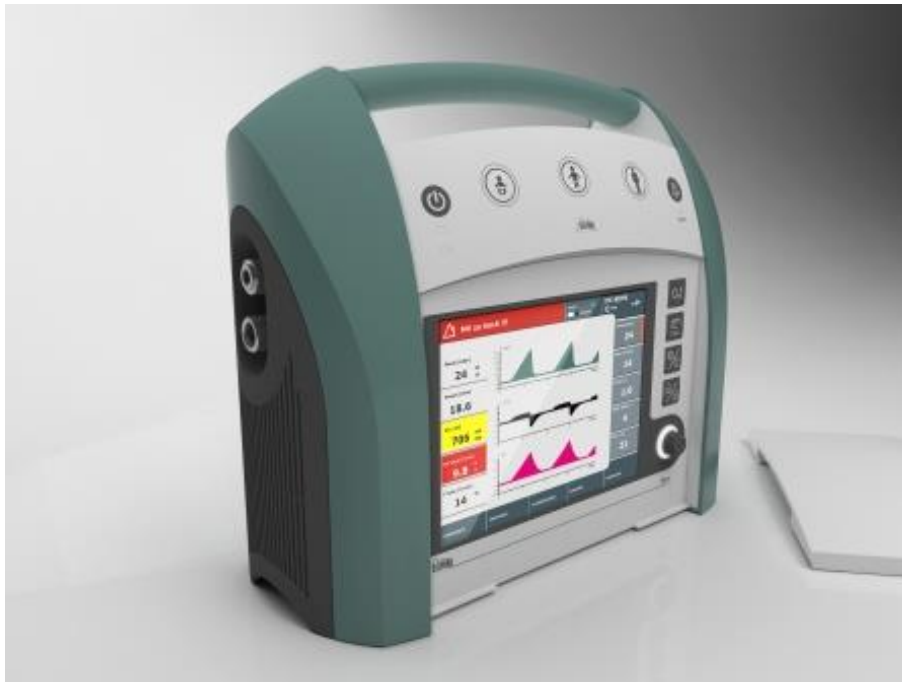

Clinical Experience  
+ Technical Competence

- Fast tracking keys to start the ventilation
- From newborn to adult
- 8,4 inch Touchscreen

## The mobile Ventilation Concept

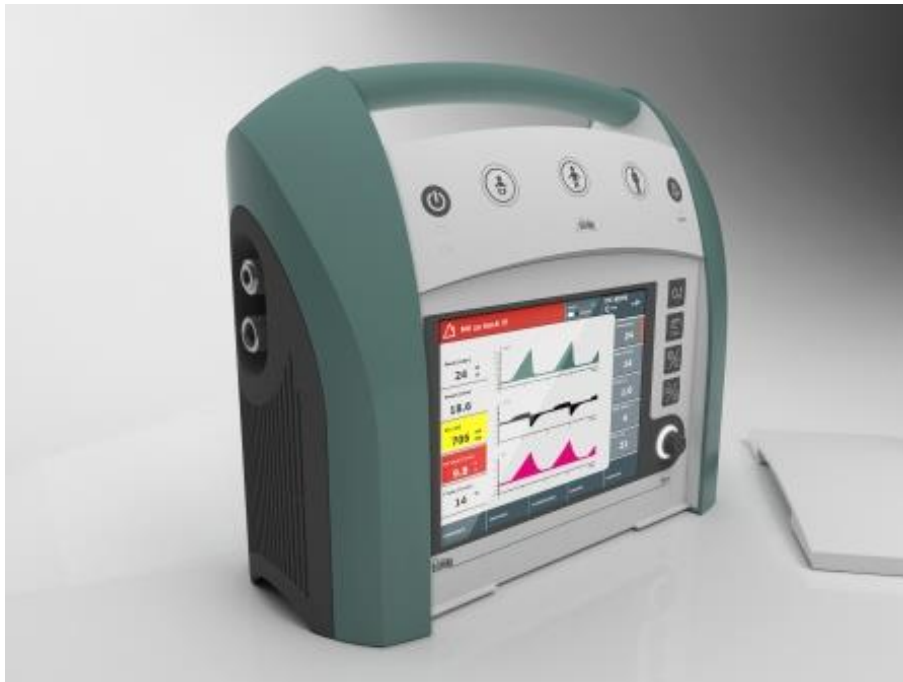

Clinical Experience  
+ Technical Competence

- Cutting edge blower technology
- Invasive and noninvasive Ventilation
- Batterybackup 6 h

## The mobile Ventilation Concept

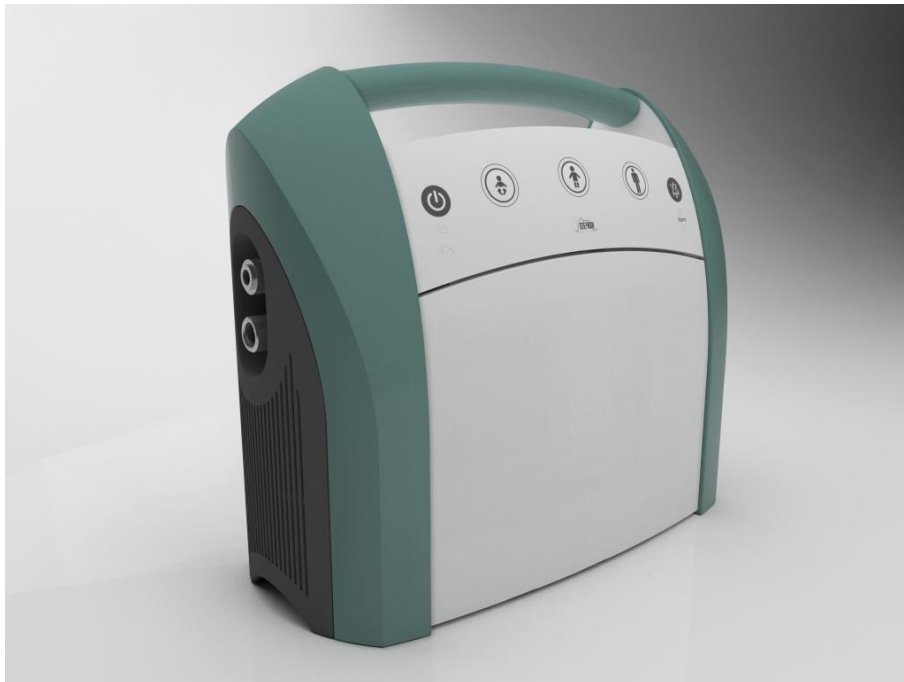

Clinical Experience  
+ Technical Competence

- 5 kg weight
- Integrated Masimo rainbow SET® Technology
- CO2 Measurement integrated

## The mobile Ventilation Concept

Clinical Experience  
+ Technical Competence

- Protective cap :
- Extended battery backup
- Protection from contamination
- Easy operation via fast tracking keys

## The mobile Ventilation Concept

Clinical Experience  
+ Technical Competence

EVE as a Intensiv care respirator

- Dockingstation
- Mobile stand
- External Humidifier

## The mobile Ventilation Concept

Clinical Experience  
+ Technical Competence

### EVE for innerclinical Transport

- All intensiv care ventilation modes available
- long batterybackup
- Easy to fix at the bedside

## The mobile Ventilation Concept

Clinical Experience  
+ Technical Competence

### EVE for emergency

- EVE is ready for use within seconds
- Low oxygen consumption / integrated blowermodule
- complete Monitoring by integrated Masimo rainbow SET® Technology und CO2 Module
