

Clinical Experience

+ Technical Competence

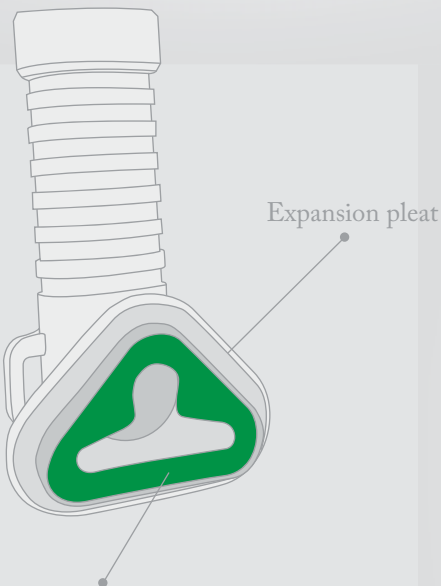

EasyFlow nCPAP

Mask features

- + Anatomical design for perfect fit
- + Avoids pressure points and skin irritation
- + Expansion pleats for self-sealing action
- + Minimal leakage
- + Very easy to use

Circumferential sealing lip adapts to nose shape.

Positive end-expiratory pressure causes the expansion pleat to be pressed lightly against the patient's face, resulting in optimal mask sealing.
